ACKNOWLEDGEMENT

We take this occasion to thank God, almighty for blessing us with his Grace and taking our endeavour to successful culmination. We extend my sincere and heartfelt thanks for our esteemed guide, for providing us with right guidance and advice at the crucial junctures and for showing us the right way.

We would like to thank the other faculty members also, at this occasion. We express our gratitude towards those who were constantly involved with us during our project. We will always occupy a special place in our heart, throughout our career, for both personal and professional reason.

The phenomenon remains same that no project ever can be executed Proficiently and efficiently without sharing the meticulous ideas, technical expertise and innovative thoughts put forwarded by technical and non-technical veterans. Whenever a technical project is developed, eventually it requires conductive technical environment and technical guidance to get involved in the assigned project enthusiastically. There is no exact word to express our regards and legitimate gratitude to one of our esteemed techno personalities, without them this project could not get an entrance towards the execution. And....

Last but not the least, we would like to thank my friends and family for the support and encouragement they have given me during the course of work.

INDEX

1. Introduction

- 1.1 Organisation Profile
- 1.2 System Details
 - 1.2.1 Existing system
 - 1.2.2 Proposed system
- 1.3 Scope of System.
- 1.4 Objectives

2. Proposed System Requirement gathering

- 2.1 Stakeholder of system
- 2.2 Requirement gathering technique used
- 2.3 Consolidated List of Requirement
- 2.4 Project Definition

3. System Management & Planning

- 3.1 Feasibility study
 - 3.1.1 Technical
 - 3.1.2 Economic
 - 3.1.3 Operational
- 3.2 Hardware- Software Requirement
- 3.3 System Planning
 - 3.3.1 Work Breakdown structure
 - 3.3.2 Gantt Chart
- 3.4 Process Model

4. System Analysis& Design

- 4.1 UML Diagram
- 4.2 System Flow Diagram
- 4.3 Data Dictionary
- 4.4 User Interface (Wire Frames)
- 4.5 System Navigation
- 4.6 Front End Design

5. Input / Output Design

6. Testing

7. Summary

- 7.1 Assumptions
- 7.2 Limitation
- 7.3 Conclusion
- 7.4 Future Scope

Bibliography

CHAPTER 1

Introduction

1.1 Organization Profile: -

Project Name: - BEAUTYCARE

Company Name:- - XcelTec Interactive Private Limited

Compy Address:- 4th Floor, Atul House, opp. DCB Bank, near Parimal Under Bridge,
Paldi, Ahmedabad, Gujarat 38000

1.2 System Details

Beauty assistant web service is a web project to help the artist working with the motive of greater profitability by direct communication between artists to customer to artists.

1.2.1 Existing System

Currently There Is No Online Web Application Available for Beauty Care. Customers who want to Beauty treatment have to visit beauty parlour And Take appointment. if beauty artist is not available then they have to visit beauty parlour on another day. It is very time consuming.

1.2.2 Proposed System

In order to solve disadvantages of exiting system a new system proposed to be developed. It is going to be developed in PHP and MySQL. Following advantages of new system.

- ⊕ Online appointment for beauty treatment.
- ⊕ Beauty artist is available or not know before the conform appointment.
- ⊕ If one artist is not available then contact to the other artist for related treatment.
- ⊕ view beauty treatment packages with price.
- ⊕ Doorstep beauty treatment.
- ⊕ Customer review.

1.3 Scope of the System: -

We are observed that there are lot of time wasted in going to saloon and waiting for artist and there are some confusions and miscalculating are possible .so scope of this system is we are going to develop web application where customer and artist directly connect to each other and customer.

1.4 Objectives of the System: -

The objective of the beauty care is to develop a web —based application using which customer can take online appointment for beauty treatment. It provides doorstep treatment. Artist know schedule.

CHAPTER 2

Proposed system requirement gathering

2.1 stakeholder of system: -

2.1.1 Admin: -

- Admin can manage all the functions and features. Admin can watch all artists list. They can give any tips regarding beauty and treatment. Admin can also access all artists. Admin can manage artist and customer.

2.1.2 Customer: -

- Customers the main user of this system. They can watch list of all artists and also book the appointment.

2.1.3 Artists: -

- Artist views the appointment and conform the appointment by calling. Artist view the feedback and complain.

2.2 requirement gathering technique used: -

➤ **List of techniques: -**

- 1) Questionnaire
- 2) Interview
- 3) Examining documentation
- 4) Research

We are used the Questionnaire technique for the requirement gathering. Questionnaires are much more informal and they are good tool, together requirement from stakeholders in remote locations. In this are create the form of questions and give it to the owner of the organization to complete it. So that is easily getting the requirement for the system.

The questionnaires are as follows:

1) Questionnaire: -

Q 1- Is there any web-based system for that organization?

- ➔ NO

Q 2- Why you want to computerize the system?

- ➔ Manually it is very time-consuming process and also waste our time for saving the time there is needed to create a system computerized.

Q3 - How do the customers contact with the artists in current system?

- ➔ Telephone, cell phone, face-to-face etc.

Q 4- How does artist received payment in currently?

- ➔ By cash.

2.3 Consolidated List Of Requirements:-

- ✚ System allow customer to online appointment booking .
- ✚ System will help to the customer add multiple beauty services and choose artist base upon artist profile and book the online Appointment.

2.4 project definition: -

“Beauty Care” We observed that there is a lot of time is wasted in going saloon and waiting for treatment. So, we are going to develop the website where any customer or artists are directly connected with each other.

CHAPTER 3

System Management and planning

3.1 feasibility study: -

The main aim of the feasibility study is to determine that it would be financially and technically feasible to develop the product or not. The purpose of feasibility study is not to solve the problem, but to determine whether the problem is worth solving.

3.1.1 Technical feasibility: -

The technical feasibility study compares the level of Technology

Available in the software development firm and the level of technology required for the development of the product. Here the level of technology consists of the programming language, the hardware resources, other software tools, etc.

In our system technical feasibility is ensured in the following factors:

- ➔ Availability of servers and open-source PHP.
- ➔ It accesses software engineering work products in an effort to remove errors before they are propagated to next activity.
- ➔ One of the most effective quality assurance mechanisms can be applied from the inception of a project with this.
- ➔ The hierarchy of technical work within the software process is activities, encompassing actions, populated by tasks.

3.1.2 Economic feasibility: -

The economic feasibility study evaluates the cost of the software development against the ultimate income or benefits gets from the developed system. There must be scope for profit after the successful completion of the project.

The system is economical because

- I. In economic feasibility, the most important is cost-benefit analysis.
- ii. Additional investment is needed in developing tools because of open-source PHP platform.
- iii. Due to economic feasibility we can estimate and make changes according to the budget.
- iv. The computerized system will help in automate the selection leading the profits and details of the organization.

v. With this software, the manpower utilization is expected to go up by 80-90% approximately.

vi. The costs incurred of not creating the system are set to be great, because precious time can be wasted by manually.

3.1.3 Operational feasibility: -

Operational feasibility study tests the operational scope of the software to be developed. It is checked that if the system is actually useful when implemented.

Our system is operationally feasible in the following ways:

i. Our system is very easy to use.

ii. Easy to operate.

iii. Our system having three languages GUI so customer can easily operate and understand.

3.2 Hardware and software requirement

3.2.1 Hardware requirement: -

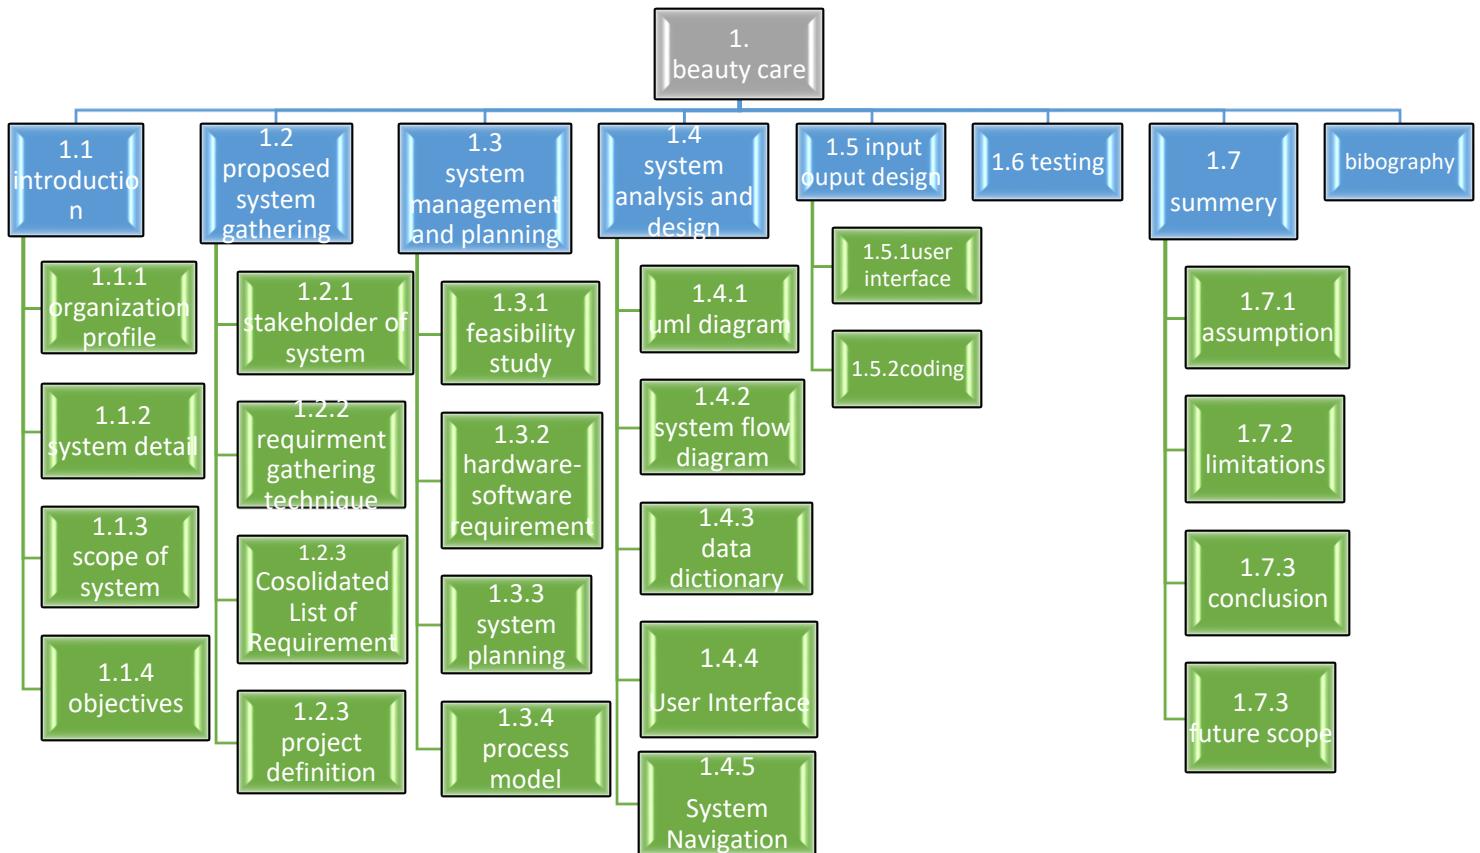

- ⊕ 1GB RAM or more
- ⊕ 2GB HDD or more
- ⊕ Processor system: Intel core i5 and higher and/or equivalent

3.2.2 Software requirement: -

- ⊕ Front-end tools: CSS3, HTML5, Java script
- ⊕ Back-end tools: My SQL.
- ⊕ Operating system: Windows 7 and higher and/or equivalent
- ⊕ Browsers: IE 7, Chrome, Mozilla
- ⊕ Language: PHP

3.3 System planning: -

3.3.1 Work breakdown structure: -

3.3.2 Gantt chart:-

Activities	Jan	Feb	March	Apr	May
Project Scope					
Requirement Gathering					
Analysis					
Designing					
Input and Output Design					
Testing					
Documentation					

3.4 project model:-

We requirements can arise in future incremental models are used. With the help of it we can fulfill maximum user requirements. In every increment the needs of the client are kept in mind and more features and functions are added. These increments Form a base for customer evaluation. Many features can be added after the development of the system that serves the main purpose. If there is less number of employees to work on the project Incremental development model is very useful to complete the project before the deadline.

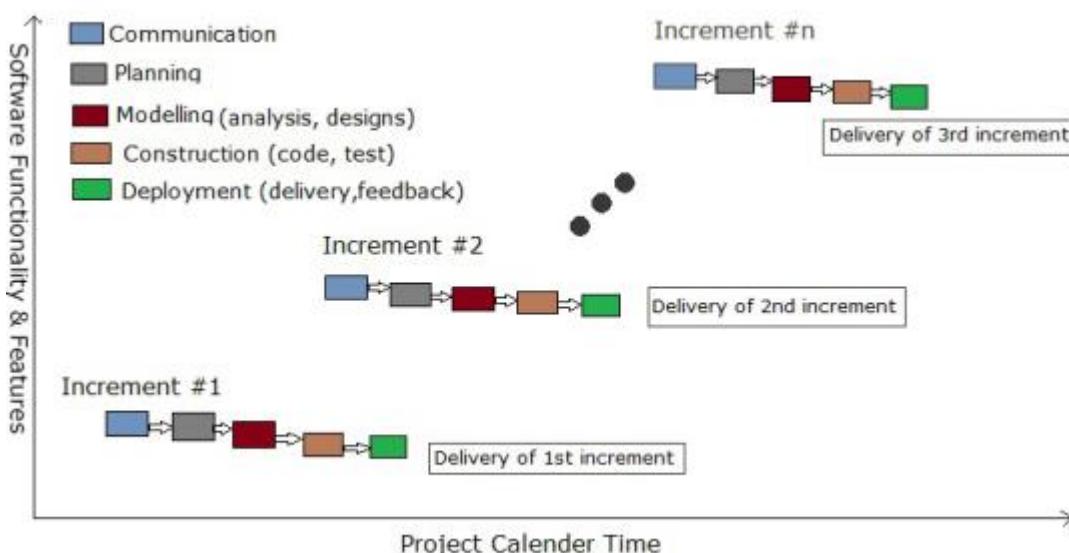

Incremental Model

Advantages:

- This model is more flexible – less costly to change scope and requirements.
- It is easier to test and debug during a smaller iteration.
- In this model customer can respond to each built.
- Lowers initial delivery cost.
- This process model helps to manage technical risks.
- Initial product delivery is faster.
- Work load is less.
- Customer can respond to feature and review the product.
- Risk of changing requirement is reduced.
- Core product is developed first that is main functionality is added in the first increment.

Disadvantages:

- Requires good analysis.
- Resulting cost may exceed the cost of the organization.
- Each phase of iteration is rigid and not overlaps each other.
- As additional functionality is added to the product, problems may arise related to systems may arise related to system architecture which were not evident in earlier prototypes.

4.2 System flow diagram: -

4.3 Data dictionary: -

4.3.1. Area table: -

Sr No.	Field	Data Type	Size	Contains	Descriptions
1	Area_Id	Integer	15	PK	To find area
2	Area name	Varchar	100	Not Null	To find area name
3	Isactive	Integer	15	Not Null	To find area is active or not
4	Date of insertion	Date	10	Not Null	Date of insert
5	Date of updation	Date	10	Not Null	Date of update

4.3.2. Sub Category table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	Sub_Id	Integer	11	PK	To find area
2	Sc_id	Integer	11	FK	To find service category id
3	Subcategory_name	Varchar	100	Not Null	To show subcategory name
4	Profile_pic	Varchar	100	Not Null	To show profile
5	Price	Varchar	50	Not Null	To find city name
6	Isactive	Integer	11	Not Null	To find city is active or not
7	Date of insertion	Date	10	Not Null	Date of insert
8	Date of updation	Date	10	Not Null	Date of update

4.3.3. Security question table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	Sq_Id	Integer	15	PK	To find security question
2	Security Question	Varchar	100	Not Null	For ask security
3	Isactive	Integer	15	Not Null	To find security question is active or not
4	Date of insertion	Date	10	Not Null	Date of insert
5	Date of updation	Date	10	Not Null	Date of update

4.3.4. Service category table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	Sq_Id	Integer	15	PK	To find service category
2	Sc_name	Varchar	100	Not Null	To find service category name
3	Profile_pic	Varchar	100	Not Null	To find Profile_pic
4	Isactive	Integer	10	Not Null	To find service category is active or not
5	Date of insertion	Date	10	Not Null	Date of insert
6	Date of updation	Date	10	Not Null	Date of update

4.3.6. Feedback table: -

Sr No.	Field	Data Type	Size	Contains	Descriptions
1	Id	Integer	11	FK	To find feedback
2	F_Id	Integer	15	PK	To find feedback
3	First name	Varchar	20	Not Null	To give user name
4	Email	Varchar	50	Not Null	To verify user
5	Phone No.	Varchar	10	Not Null	To verify no
6	Message	Varchar	100	Not Null	To give feedback
7	Isactive	Integer	10	Not Null	To find feedback is active or not
8	Date of insertion	Date	10	Not Null	Date of insert
9	Date of updation	Date	10	Not Null	Date of update

4.3.7. Complaint table: -

Sr No.	Field	Data Type	Size	Contains	Descriptions
1	Id	Integer	11	FK	To find complaint
2	C_id	Integer	15	PK	
2	First name	Varchar	100	Not Null	To find user name
3	Email	Varchar	100	Not Null	To verify user
4	Phone No.	Varchar	10	Not Null	To verify no
5	Message	Varchar	100	Not Null	To send complaint message
6	Isactive	Integer	15	Not Null	To find complaint is active or not
7	Date of insertion	Date	10	Not Null	Date of insert
8	Date of updation	Date	10	Not Null	Date of update

4.3.8. Cart table: -

Sr No.	Field	Data Type	Size	Contains	Descriptions
1	Cart_Id	Integer	15	PK	To find cart
2	Sub_Id	Integer	15	FK	To find service
3	Price	Varchar	100	Not Null	To find service price
4	Subcate_name	Varchar	50	Not Null	To find subcate_name
5	Isactive	Integer	10	Not Null	To find cart is active or not
6	Date of insertion	Date	10	Not Null	Date of insert
7	Date of updation	Date	10	Not Null	Date of update

4.3.9. Order table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	Order_Id	Integer	11	PK	To find order
2	Cart_id	Integer	11	FK	To find cart_id
3	Sub_id	Integer	11	FK	To find sub_category id
4	User_id	Integer	11	Not Null	To find user_id
5	Price	Varchar	100	Not Null	To show price
6	Artist_id	Integer	11	Not Null	To find artist_id
7	T_id	Integer	11	Not Null	To find t_id
8	Isactive	Integer	10	Not Null	To find service is active or not
9	Date of insertion	Date	10	Not Null	Date of insert
10	Orderuserid	Integer	11	Not Null	To find order user id

4.3.10. Contact table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	Cn_Id	Integer	11	PK	To find order
2	Id	Integer	11	FK	To find cart_id
3	Name	Varchar	100	Not Null	To find name
4	Email	Varchar	100	Not Null	To show email
5	Subject	Varchar	30	Not Null	To show Subject
6	Message	Varchar	100	Not Null	To show message
7	Isactive	Integer	10	Not Null	To find service is active or not
8	Date of insertion	Date	10	Not Null	Date of insert
9	Date of Updation	Date	10	Not Null	Date of update

4.3.11. Timeslot table: -

Sr No.	Field	Data Type	size	Contains	Descriptions
1	T_Id	Integer	11	PK	To find time id
2	Id	Integer	11	FK	To find cart_id
3	Time	Varchar	100	Not Null	To show time
4	Status	Varchar	30	Not Null	To show Status
5	Isactive	Integer	11	Not Null	To show Subject

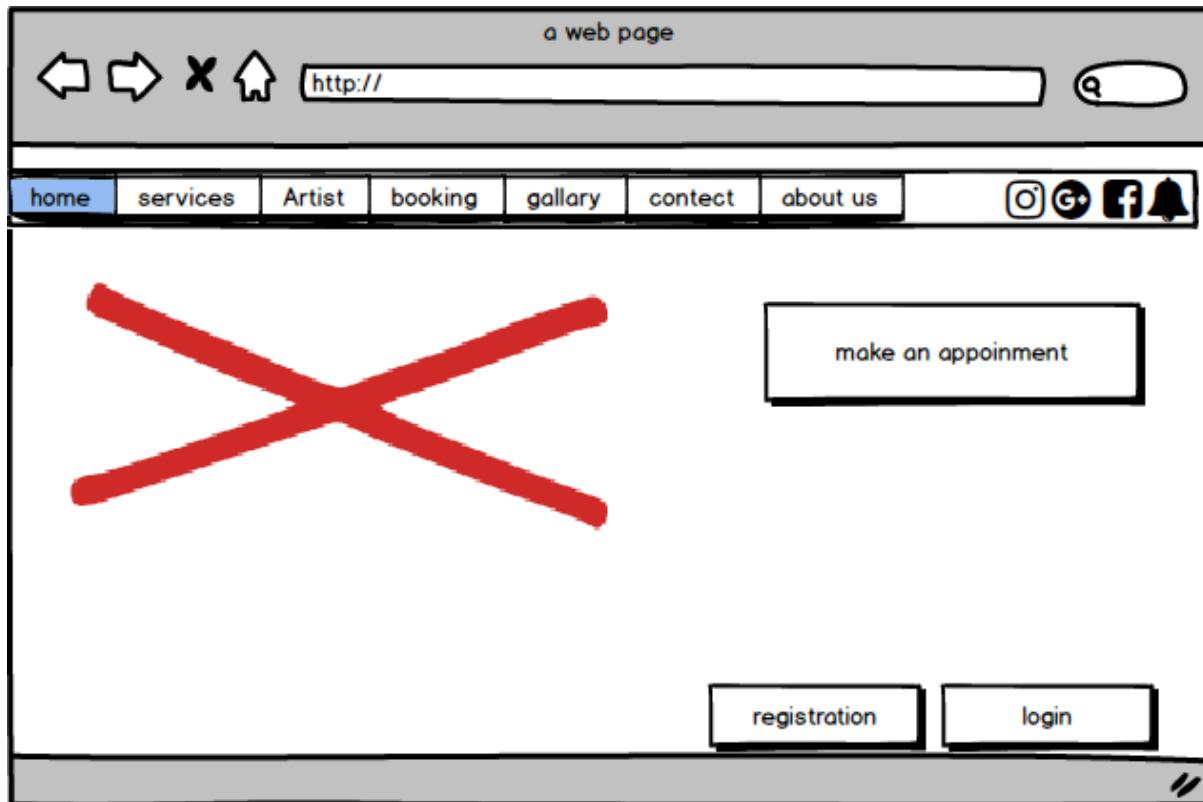

4.3.12. Reg table: -

Sr No.	Field	Data Type	Size	Contains	Descriptions
1	Id	Integer	11	PK	To find user
2	First name	Varchar	20	Not Null	To find user name
3	Last name	Varchar	20	Not Null	To find user name
4	Email	Varchar	50	Not Null	To verify the user
5	Gender	Varchar	10	Not Null	Choose gender
6	Password	Varchar	20	Not Null	To verify the user
7	User type	Varchar	20	Not Null	Admin,artist Customer
8	Sq_que1	varchar	100	Not Null	To find city
9	Profile pic	Varchar	100	Not Null	For profile pic
10	Sq_ans1	Integer	100	Not Null	To find area
11	Address	Varchar	100	Not Null	To store address
12	Sq_que2	Varchar	100	Not Null	To find security question
13	Sq_ans2	Varchar	100	Not Null	To give answer
14	Mobile no.	Varchar	10	Not Null	To verify no
15	Sq_que3	Varchar	100	Not Null	To find security Question
16	Sq_ans3	varchar	100	Not Null	To find answer
17	Skill	varchar	100	Not Null	To show skill
18	Discription	varchar	100	Not Null	To show description
19	is active	Integer	10	Not Null	To find user is active or not
20	Date of insertion	Date	10	Not Null	Date of insert
21	Date of updation	Date	10	Not Null	Date of update

shrutibeautycare@gmail.com
- Opening Hours:**
Monday-Sunday: 10 Am to 8 Pm

The browser's address bar shows the URL. The taskbar at the bottom displays various pinned icons and the date/time: 15:52, 19-05-2021.

➤ **Admin side:**

➤ **CHANGE PASSWORD:**

The screenshot shows a web browser window titled "localhost / 127.0.0.1 / finalproject". The URL bar shows "localhost/beauty%20care/admin%20panel/changepassword.php". The page has a red header bar with the word "Admin". On the left, there is a sidebar with a profile picture of a woman and a list of administrative tasks: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, Manage artist, and Manage security-question. The "Manage area" option is currently selected. The main content area is titled "CHANGE PASSWORD" and contains four input fields: "amee@gmail.com" (Email), "Old Password" (disabled), "New Password" (disabled), and "Retype Password" (disabled). Below these fields is a "Submit" button. The bottom of the screen shows a Windows taskbar with various application icons.

➤ **ADD AREA:**

The screenshot shows a web browser window titled "localhost / 127.0.0.1 / finalproject". The URL bar shows "localhost/beauty%20care/admin%20panel/addarea.php". The page has a red header bar with the word "Admin". On the left, there is a sidebar with a profile picture of a woman and a list of administrative tasks: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, Manage artist, and Manage security-question. The "Manage area" option is currently selected. The main content area is titled "ADD AREA" and contains one input field labeled "Area Name" with the placeholder "Enter Area Name". Below this field is a "Submit" button. The bottom of the screen shows a Windows taskbar with various application icons.

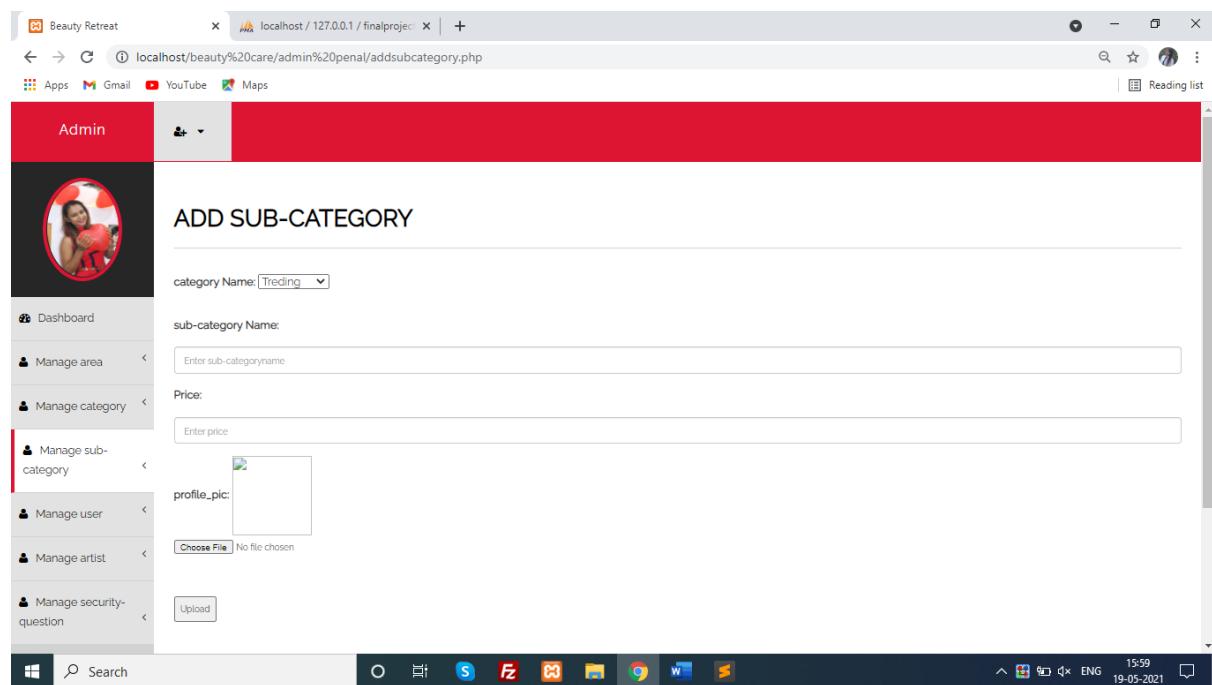

➤ **ADD ARTIST:**

A screenshot of a web browser showing the 'REGISTRATION' form for an admin user. The page has a red header bar with the word 'Admin'. On the left, there is a sidebar with a navigation menu. The 'Manage category' option is currently selected. The main form fields include 'First Name' (placeholder 'Enter firstname'), 'Last Name' (placeholder 'Enter lastname'), 'Email' (placeholder 'Enter email'), 'Mobile No' (placeholder 'Enter Number'), 'Gender' (radio buttons for Male and Female), and 'Password'. The browser's address bar shows 'localhost/beauty%20care/admin%20penal/addartist.php'. The system status bar at the bottom right indicates '15:57 19-05-2021'.

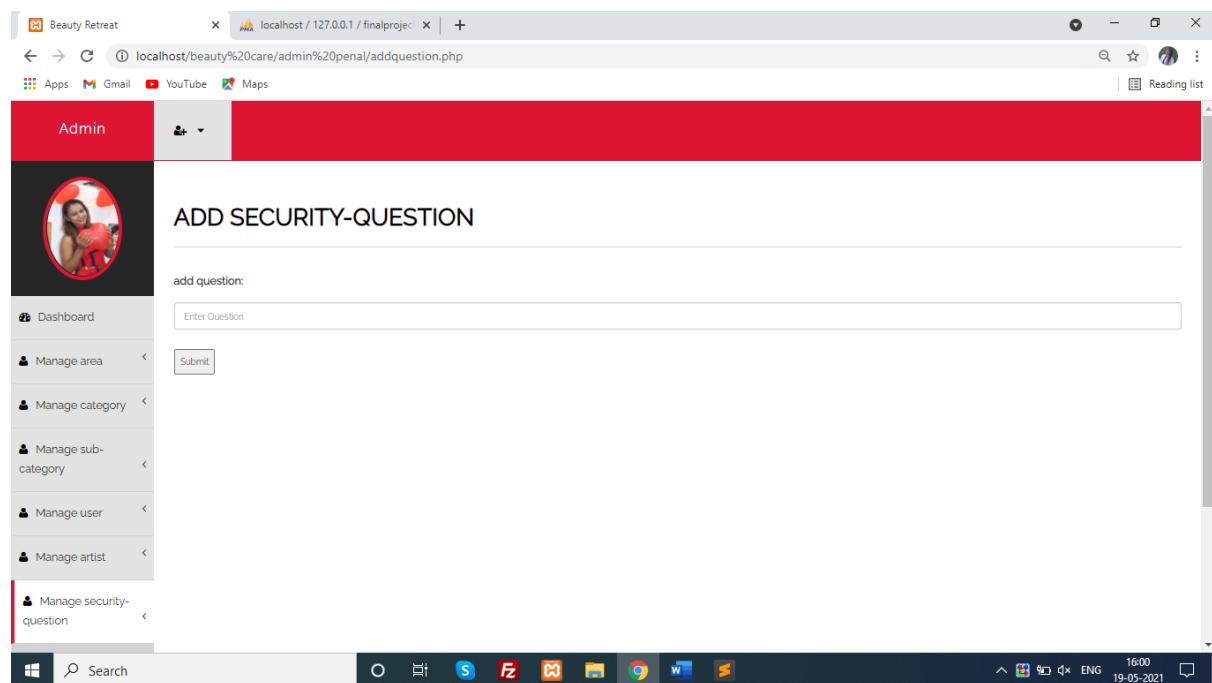

➤ ADD CATEGORY:

A screenshot of a web browser showing the 'ADD CATEGORY' form. The page has a red header bar with the word 'Admin'. On the left, there is a sidebar with a navigation menu. The 'Manage category' option is currently selected. The main form fields include a 'category Name:' input field (placeholder 'Enter categoryname') and a file upload section for 'profile.pic'. The file 'profile.pic' is shown as a thumbnail, and there is a 'Choose File' button and an 'Upload' button. The browser's address bar shows 'localhost/beauty%20care/admin%20penal/addcategory.php'. The system status bar at the bottom right indicates '15:57 19-05-2021'.

➤ ADD SUBCATEGORI:

➤ ADD QUESTION:

➤ ADD USER:

The screenshot shows a web browser window with a red header bar. On the left, a sidebar menu lists various administrative options: Dashboard, Manage area, Manage category, Manage sub-category, Manage user (which is currently selected), Manage artist, and Manage security-question. The main content area is titled 'REGISTRATION' and contains fields for First Name, Last Name, Email, Mobile No, Gender (with radio buttons for Male and Female), and Password. A placeholder image of a woman in a boxing ring is displayed above the form. The browser's address bar shows the URL 'localhost/beauty%20care/admin%20open/adduser.php'. The system tray at the bottom right indicates the date as 19-05-2021 and the time as 16:00.

➤ EDIT PROFILE:

The screenshot shows a web browser window with a red header bar. The sidebar menu is identical to the previous screenshot, showing 'Manage user' as the active option. The main content area is titled 'EDIT PROFILE' and displays a profile picture of a woman in a boxing ring, a file input field labeled 'profile_pic:', and several text input fields for 'first Name' (amisha), 'last Name' (prajapati), 'mobile no' (9714696710), and 'gender'. The browser's address bar shows the URL 'localhost/beauty%20care/admin%20open/editprofile.php'. The system tray at the bottom right indicates the date as 19-05-2021 and the time as 16:01.

➤ VIEW AREA:

The screenshot shows a web browser window titled "localhost / 127.0.0.1 / finalproject" with the URL "localhost/beauty%20care/admin%20panel/viewarea.php". The page has a red header bar with the title "VIEW AREA". On the left, there is a sidebar with a user profile picture and navigation links: "Dashboard", "Manage area", "Manage category", "Manage sub-category", "Manage user", and "Manage artist". The main content area displays a table with the following data:

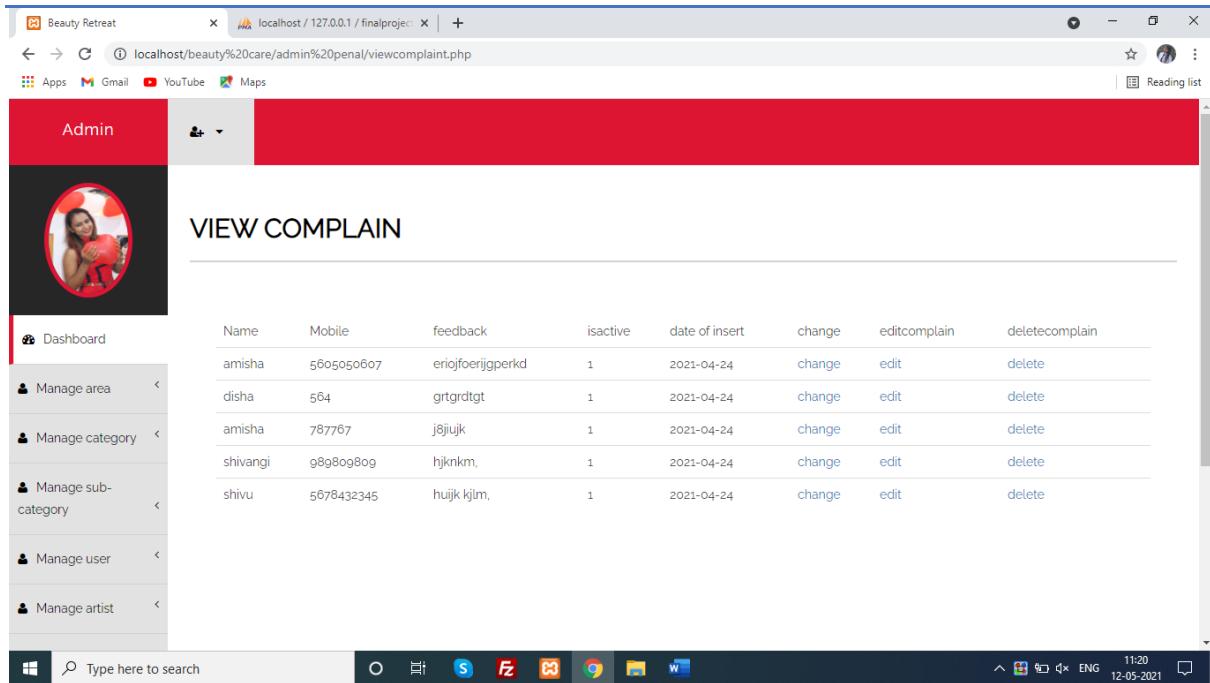

Area Name	Isactive	date of insert	date of update	Delete	status	edit

➤ ADD ARTIST:

The screenshot shows a web browser window titled 'localhost / 127.0.0.1 / finalproject'. The URL is 'localhost/beauty%20care/admin%20panel/addartist.php'. The page has a red header bar with the word 'Admin'. On the left, there is a sidebar with a profile picture of a woman holding balloons and a navigation menu: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, Manage artist (which is currently selected), and Manage security-question. The main content area is titled 'REGISTRATION' and contains fields for First Name, Last Name, Email, Mobile No, Gender (Male/Female), and Password. Below these fields is a 'Gender' section with radio buttons for Male and Female. At the bottom of the page, there is a search bar and a taskbar with various icons.

➤ VIEW ALL ARTIST:

The screenshot shows a web browser window titled 'localhost / 127.0.0.1 / finalproject'. The URL is 'localhost/beauty%20care/admin%20panel/viewallartist.php'. The page has a red header bar with the word 'Admin'. On the left, there is a sidebar with a profile picture of a woman holding balloons and a navigation menu: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, Manage artist (which is currently selected), and Manage security-question. The main content area is titled 'VIEW ALL ARTIST' and displays a table of artist information. The columns are: First Name, Last Name, Mobile, Gender, Area, skill, description, address, profile_pic, date of insert, change, and ec. There are three rows of data:

First Name	Last Name	Mobile	Gender	Area	skill	description	address	profile_pic	date of insert	change	ec
sweta	patel	9425675940	female	isanpur	hair cutting	1 year treining,1 year expirean	b2.bhaktinagar society,ahmedabad- 380051,vatva,ahmedabad		2021-04-24	change	ec

aayushi	makwana	9723222014	female	sola	facial,makeup	1 year training, 2 year	8.haridarshan society,vatva,ahmedabad		2021-04-24	change	ec

At the bottom of the page, there is a search bar and a taskbar with various icons.

➤ VIEWALLUSER:

The screenshot shows a web browser window titled "Beauty Retreat" with the URL "localhost/beauty%20care/admin%20penal/viewalluser.php". The page has a red header bar. On the left, there is a sidebar with a profile picture and a list of admin management options: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, and Manage artist. The main content area is titled "VIEW ALL USER" and displays a table with one row of data. The columns are: First Name, Last Name, Mobile, Gender, Area, address, profile_pic, date of insert, change, edituser, and deleteuser. The data in the table is:

First Name	Last Name	Mobile	Gender	Area	address	profile_pic	date of insert	change	edituser	deleteuser
shivangi	prajapati	9409688075	female	vatva	b2.bhaktinagar society,vatva,ahmedabad		2021-04-24	change	edit	delete

➤ VIEW PROFILE:

The screenshot shows a web browser window titled "Beauty Retreat" with the URL "localhost/beauty%20care/admin%20penal/viewprofile.php". The page has a red header bar. On the left, there is a sidebar with a profile picture and a list of admin management options: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, and Manage artist. The main content area is titled "VIEW PROFILE" and displays a table with one row of data. The columns are: first name, Last Name, Mobile, Gender, area, address, profile_pic, and date of insert. The data in the table is:

first name	Last Name	Mobile	Gender	area	address	profile_pic	date of insert
amisha	prajapati	9714696710	female	vatva	8.haridarshan society,vatva,ahmedabad		2021-04-24

➤ **ARTIST SIDE:**
➤ **CHANGE PASSWORD:**

The screenshot shows a web browser window with the URL `localhost/127.0.0.1/finalproject/beauty%20care/artist%20panel/changepassword.php`. The page title is "CHANGE PASSWORD". On the left, there is a sidebar with a user profile picture and a list of menu items: Dashboard, Manage customer, Manage order, Manage complain, Manage feedback, Manage Contact, and Manage Schedule. The "Dashboard" item is highlighted with a red border. The main content area contains four input fields: "Email" (sweta@gmail.com), "Old Password", "New Password", and "Retype Password". Below these fields is a "Submit" button. The browser's address bar shows the full URL. The taskbar at the bottom includes icons for File, Home, Task View, Start, Search, and several pinned applications.

➤ **ADD TIME:**

The screenshot shows a web browser window with the URL `localhost/127.0.0.1/finalproject/beauty%20care/artist%20panel/addtime.php`. The page title is "ADD TIME". The left sidebar is identical to the previous screenshot, showing the "Manage Schedule" item as the active menu. The main content area has a form titled "Add Time" with three fields: "Enter Time", "Status" (set to "Pending"), and a "Submit" button. The browser's address bar and taskbar are visible at the top and bottom respectively.

➤ EDIT PROFILE:

The screenshot shows a web browser window titled 'localhost / 127.0.0.1 / finalproject'. The URL is 'localhost/beauty%20care/artist%20panel/editprofile.php'. The page has a red header bar with the text 'artist'. On the left, there is a sidebar with a profile picture and a list of navigation items: Dashboard, Manage customer, Manage order, Manage complain, Manage feedback, Manage Contact, and Manage Schedule. The main content area is titled 'EDIT PROFILE'. It contains fields for 'profile_pic' (with a preview image of a person), 'first Name' (sweta), 'last Name' (patel), 'mobileno' (9425675940), and 'skill'. The bottom of the screen shows a Windows taskbar with various icons and the date/time '19-05-2021 16:08'.

➤ VIEW COMPLAINS:

The screenshot shows a web browser window titled 'localhost / 127.0.0.1 / finalproject'. The URL is 'localhost/beauty%20care/admin%20panel/viewcomplaint.php'. The page has a red header bar with the text 'Admin'. On the left, there is a sidebar with a profile picture and a list of navigation items: Dashboard, Manage area, Manage category, Manage sub-category, Manage user, and Manage artist. The main content area is titled 'VIEW COMPLAIN'. It displays a table of complaints with columns: Name, Mobile, feedback, isactive, date of insert, change, editcomplain, and deletecomplain. The table data is as follows:

Name	Mobile	feedback	isactive	date of insert	change	editcomplain	deletecomplain
amisha	5605050607	erijoerijgperkd	1	2021-04-24	change	edit	delete
disha	564	grtgrdtgt	1	2021-04-24	change	edit	delete
amisha	787767	j8jiujk	1	2021-04-24	change	edit	delete
shivangi	989809809	hjknkm,	1	2021-04-24	change	edit	delete
shivu	5678432345	huijk kjlm,	1	2021-04-24	change	edit	delete

The bottom of the screen shows a Windows taskbar with various icons and the date/time '12-05-2021 11:23'.

➤ VIEW CONTACT:

The screenshot shows a web browser window titled "localhost / 127.0.0.1 / finalproject" displaying the "VIEW CONTACT" page. The left sidebar is titled "Admin" and includes a profile picture of a woman, a "Dashboard" link, and dropdown menus for "Manage area", "Manage category", "Manage sub-category", "Manage user", and "Manage artist". The main content area has a red header bar and displays the title "VIEW CONTACT". Below it is a table with the following columns: Name, email, subject, message, isactive, date of insert, change, editcontact, and deletecontact. A single row is present in the table:

Name	email	subject	message	isactive	date of insert	change	editcontact	deletecontact
shivangis	shivu@gmail.com	iujhaskop	o8ijkmjoikl,	1	2021-04-24	change	edit	delete

The status bar at the bottom shows "11:23 12-05-2021".

➤ VIEW FEEDBACK:

The screenshot shows a web browser window titled "localhost / 127.0.0.1 / finalproject" displaying the "VIEW FEEDBACK" page. The left sidebar is titled "Admin" and includes a profile picture of a woman, a "Dashboard" link, and dropdown menus for "Manage area", "Manage category", "Manage sub-category", "Manage user", and "Manage artist". The main content area has a red header bar and displays the title "VIEW FEEDBACK". Below it is a table with the following columns: Name, Mobile, feedback, isactive, date of insert, change, editfeedback, and deletefeedback. Multiple rows are present in the table:

Name	Mobile	feedback	isactive	date of insert	change	editfeedback	deletefeedback
divya	8798986789	bjkmnikdfjkjgdfc	1	2021-04-24	change	edit	delete

shivangi	6587907865	234ertfhnvngfs	1	2021-04-24	change	edit	delete
shivangi	6587907865	234ertfhnvngfs	1	2021-04-24	change	edit	delete
shivangi	6587907865	234ertfhnvngfs	1	2021-04-24	change	edit	delete
shivangi	6587907865	234ertfhnvngfs	1	2021-04-24	change	edit	delete

The status bar at the bottom shows "11:23 12-05-2021".

➤ **VIEW TIME:**

The screenshot shows a web browser window with a red header bar. The main content area displays a table titled 'VIEW TIME' with the following data:

time	status	isctive	delete	block	edit
11to12	booking	1	delete	change	Edit
5to10	pending	1	delete	change	Edit
10to12	pending	1	delete	change	Edit
1to4	booking	1	delete	change	Edit

The left sidebar has a red header 'artist' and contains the following navigation items:

- Dashboard
- Manage customer
- Manage order
- Manage complain
- Manage feedback
- Manage Contact
- Manage Schedule

The bottom taskbar shows various icons and the date/time: 16:09 19-05-2021.

Login test Case Of Admin , Artist & Customer :-

Test case Id	Component	Description	Test Steps	Test Data	Expected Result	Actual Result
1	Login user id and password field(correct and required data entered)	Checks valid user id and password entered for login.	1. Enter valid user id. 2.Enter valid password 3. Click login button	1)amisha29@gmail.com, 2)amisha@123	Check the validity of user id and password, if correct then it should allow successful login	Allowed login successfully.
2	Login userid and password field.(any of the data enter wrong)	Checks when the data is not correct as per required data.	1. Enter invalid user id. 2.Enter invalid password 3. Click login button	1)fjoidrg @gmail.com 2)g9606	Check the validity of user id and password, if correct then it should allow successful login	Login unsuccessful.
3	Login user id (enter only password)	When don't enter user id and click login	1.Without User id directly entered password 2.Click login button	1) 2)amee	It should ask to enter user id	It saying to enter the user id
4	Login password field (enter only user id)	When the user id is entered but password field leave	1.user id entered 2. leave password field blank	1)amisha29@gmail.com, 2)	It should check the valid id and ask to enter password	It asking to enter the password.

		blank and try to login	3.click login			
5	Login user id and password field (leave both field empty)	When user doesn't enter any kind of data and click to login	1 leave user id 2 leave password 3 click submit	1) 2)	It should ask to enter the data as per requirement	It asking to enter the user id and password
6	Login user id and password field (correct user id and wrong password)	When user enters the correct id but enter wrong password and try to login.	1)Enter valid user id 2) Enter invalid password 3)click login	1) <u>amisha29@gmail.com</u> 2)12345	It should check for valid user id and password and then allow to login	It doesn't allow to login and ask to enter correct password.
7	Login user id and password field (wrong user id and correct password)	When user enter the wrong id but enter the correct password and try to login	1)Enter invalid user id 2) Enter valid password 3)click login	1) <u>fdjioero@gmail.com</u> 2)amee@123	It should check for valid user id and password and then allow to login	It doesn't allow to login and ask to enter correct Email Id.

CHAPTER 7

SUMMARY

7.1 Assumption: -

- ⊕ The artist and customer must have basic knowledge of computers and online systems.
- ⊕ The Admin should know about the artist or customer requirement.

7.2 Limitation: -

- ⊕ We do not provide any other languages like Hindi, Guajarati etc.
- ⊕ This website is only visible in Ahmedabad.
- ⊕ Online payment is not possible.

7.3 Conclusion: -

- ⊕ Updating of information becomes so easier.
- ⊕ It provides a friendly graphical user interface which proves to be better when compared to the existing system.
- ⊕ It gives appropriate access to the authorized users depending on their permissions.
- ⊕ It effectively overcomes the delay in communications between artist and customer.
- ⊕ System security, data security and reliability are the striking features.
- ⊕ The System has adequate scope for modification in future if it is necessary.

7.4 Future Scope: -

- ⊕ In future we can provide any other language.
- ⊕ We provide online payment system.
- ⊕ We can provide beauty related video or another information.
